

**Merrill Warkentin** is a William L. Giles Distinguished Professor at Mississippi State University, where he serves as the James J. Rouse Endowed Professor of Information Systems in the College of Business. Named an ACM Distinguished Scientist in 2018 and an AIS Fellow in 2023, he has also been identified (by a Stanford University study) as one of the top 2% of scientists in the world for his scholarly impact. His research, published in leading scientific journals, addresses the impacts of organizational, contextual, and dispositional influences on individual behaviors in the contexts of information security, privacy, and social media. He is the author of over 115 peer-reviewed journal articles and the author or editor of seven books. Dr. Warkentin was the Program Co-Chair for the 2016 AMCIS Conference, and he serves (or has served) in Editorial Roles for *MIS Quarterly*, *Information Systems Research*, *Journal of the AIS*, *Decision Sciences*, *European Journal of Information Systems*, *Information & Management*, and other journals. His work has been funded by NATO, NSF, NSA, DoD, Homeland Security, IBM, and others.
